

JOVAN JOVOVIĆ

Software Engineer | Full-Stack Developer | Data Scientist

jovan.jovovic064@gmail.com | +381 61 220 7486 | Belgrade, Serbia

TECHNICAL SKILLS

Programming Languages

Java, Python, TypeScript, JavaScript, Kotlin

Frontend

Angular, React, React Native

Backend

Node.js, Django, Spring Boot, REST API Design

Databases

MySQL, NoSQL Databases

Tools & Technologies

Git, Docker, UML, Cursor

LANGUAGES

- Serbian
- English

INTERESTS

- Reading philosophy books
- Sports training
- Psychology
- Strategy games
- Exploring AI and data science

PROFILE

Software Engineer with 2.5 years of experience in full-stack development, building web applications, APIs, and database-driven systems. Strong background in delivering end-to-end software solutions, with a current focus on expanding into Data Science and developing expertise in data-driven problem solving.

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Mar 2026 - Present

Zepter International | Belgrade, Serbia

- Working on full-stack development of business and e-commerce software solutions across web and mobile environments.
- Developing and maintaining features across frontend, backend, APIs, databases, and internal business applications.
- Contributing to mobile and web application improvements, integration work, and system modernization initiatives.

Software Developer

Aug 2023 - Current

Dunja Group | Belgrade, Serbia

- Developed an end-to-end food delivery platform for doTebe.rs.
- Built mobile, web, and admin applications for system management and operational oversight.
- Designed and managed the backend data flow and administrative functionalities.

AI / Full-Stack Developer

Sep 2024 - Nov 2025

Core Analitica | St. Petersburg, Florida, USA

- Developed a web application for AI-assisted contract analysis and comparison.
- Created mechanisms for processing diverse contract documents and deriving the data points needed for comparison.
- Developed features for analyzing uploaded contracts of different types and identifying key parameters for comparison.
